We have access to a range of different catering options from streetfood traders who set up and cook in our courtyard to locally made antipasti platters. Prices vary according to selected supplier so please ask us for more information.

We are also able to source musicians for your event and have a licence that permits live music. Again, prices vary according to individual musicians/bands. We are happy for our clients to source their own entertainment, however we do encourage all music to be acoustic in order to manage the volume levels to respect our neighbours.
